From Public Works Director Bruce McClure, dated April 10, 2007, transmitting the above bill. From HSAC Alternate Vice President Bob Jacobson, dated April 18, 2007, submitting a packet containing materials related to the above meeting.

From Councilmember Brenda Ford, dated April 5, 2007, requesting the above report.

Comm. 176.33: REVISED ADMINISTRATION DRAFT OF BILL 51, RELATING TO STORMWATER MANAGEMENT

From Public Works Director, dated April 19, 2007, transmitting a revised Administration draft of Bill 51. The revisions are the correction of one typographical error, the deletion of two items that were adopted in Bill 52, and the inclusion of elevating a ground floor one foot above existing ground for “Zone X, which is shaded. If the Committee is favorable, the department proposes to address flooding in a two step process: Step one, pass a bill which fulfills the requirements of the National Flood Insurance Program; and Step two, pass a second bill which addresses the policy issues wanted by the Council. The advantages of these two steps are that we can simplify by codifying the items we agree on and quickly come into compliance with the National Flood Insurance Program, thereby being eligible to participate in the Community Rating System; this will allow fuller discussion and exploration of any unanticipated consequences of proposed policy items.
