

**Table 6.3-- STATE LAND USE, HAWAII COUNTY, BY DISTRICTS: 2003**

(In acres)

| <b>District</b>      | <b>Total</b>     | <b>Urban <u>1/</u></b> | <b>Rural <u>2/</u></b> | <b>Agricultural <u>3/</u></b> | <b>Conservation <u>4/</u></b> |
|----------------------|------------------|------------------------|------------------------|-------------------------------|-------------------------------|
| <b>Hawaii County</b> | <b>2,577,805</b> | <b>54,826</b>          | <b>923</b>             | <b>1,180,815</b>              | <b>1,341,241</b>              |
| Puna                 | 320,173          | 6,421                  | 140                    | 175,077                       | 138,535                       |
| South Hilo           | 252,962          | 12,624                 | 3                      | 71,870                        | 168,465                       |
| North Hilo           | 174,378          | 583                    | 78                     | 53,644                        | 120,073                       |
| Hamakua              | 400,141          | 1046                   | 14                     | 162,766                       | 236,315                       |
| North Kohala         | 79,837           | 2,418                  | 20                     | 64,756                        | 12,643                        |
| South Kohala         | 176,439          | 10,763                 | 128                    | 150,172                       | 15,376                        |
| North Kona           | 365,430          | 18,303                 | 507                    | 159,686                       | 186,934                       |
| South Kona           | 146,663          | 830                    | 33                     | 110,612                       | 35,188                        |
| Kau                  | 661,782          | 1,838                  | 0                      | 232,232                       | 427,712                       |

1/ Lands in urban use with sufficient reserve areas to accommodate foreseeable growth.

2/ Lands composed primarily of small farms mixed with very low density residential lots with minimum lot size of one-half acre.

3/ Includes land with a high capacity for intensive cultivation.

4/ Comprised primarily of lands in the existing forest and water reserve zones.
