3/ Visits = (number of vehicles) x (occupants) or the number of actual visits, depending on the facility. One visitor may account for more than one visit.

4/ In 2005, one new site was added to the inventory of parks, however, the new value reflects a change in how the County of Hawaii identifies individual park sites. The increase in acreage is due to the addition of one new site as well as corrections to existing park areas.
